CAREER OBJECTIVE:

Utilize my strong leadership, vast technical expertise and critical thinking abilities to support and implement strategic Information Technology objectives.

PROFESSIONAL SUMMARY:

- ⤴ Senior manager with active TS/SCI security clearance and over 20 years of experience in Information Technology (IT) management, acquisitions, operations and maintenance.
- ⤴ Program Manager with proven ability to deliver secure, enterprise collaboration solutions and implement strategic vision supporting organizational objectives.
- ⤴ Professional, personable, results-oriented leader who builds highly motivated teams, excels under strict deadlines and drives to mission success.

EXPERIENCE:

Program Manager, Deputy Branch Chief and Superintendent, July 2009-present United States Air Force, National Reconnaissance Office (NRO), Chantilly, VA

- ⤴ Planned and delivered secure Information Technology (IT) solutions to 50K+ global Intelligence Community (IC) users. Led \$18M+ Unified Communications Program incorporating an 18 member engineering team, 4 sub-programs and more than 80 voice, video and mission critical conferencing projects.
- ⤴ Organized 13 member team to transform network connectivity between industry partners and Federal agencies slashing IT delivery times from over 12 months to less than 30 days and reducing hardware and touch labor by 50%.
- ⤴ Revamped an enterprise Voice-over-Internet Protocol (VoIP) telephone system for more than 500 government and industry partner locations. Reduced server footprint from 35 to 6, provided system redundancy and negotiated an enterprise license agreement, saving over \$6M.
- ⤴ Forged organizational and inter-agency partnerships. Provided enterprise collaboration solutions ahead of schedule and under budget.

Team Chief, Executive Travel Communications, (Selectively Manned) July 2005-July 2009 United States Air Force, Andrews AFB, MD

- ⤴ Managed 26 member, multifaceted communication team. Perfectly executed 143 worldwide operations directly supporting the Secretary of Defense and his staff. Provided global reach-back and extended secure Pentagon networks and voice and video services to remote locations.
- ⤴ Enabled \$14M mobile communication overhaul. Researched, developed and delivered 8 quick-reaction, satellite systems enabling wide-area network connectivity. Provided secure access to 3 networks and 20 telephone and video teleconferencing circuits.

Non-Commissioned Officer In-Charge, (Selectively Manned) July 2001-July 2005
United States Air Force, Las Vegas, NV

- ✦ Supervised 8 telecommunication personnel. Managed ground-to-air, site to-site, and satellite data communication systems valued at over \$25M, covered 12,000 square miles and supported President and Secretary of Defense special projects.
- ✦ Led \$8M digital trunking radio project. Guaranteed on-demand airtime availability for more than 2000 federal customers supporting National-level B-1, B-2, F-117, and F/A-22 testing.

Radio Maintenance Technician, (Selectively Manned) July 1998-July 2001
United States Air Force, MacDill AFB, FL

- ✦ Team lead for real-world contingency deployments. Managed installation, operations of secure voice, video and data links over satellite and line of site radio links in austere locations.
- ✦ Led \$100K mobile C2 project. Designed, built and installed communication packages for covert vehicles utilized in highly sensitive special operations.

Radio Maintenance Technician, July 1996 to July 1998
United States Air Force, Rammstein AFB, GE and Bosnia

- ✦ Installed and maintained Land Mobile Radio and VHF/UHF radio systems.
- ✦ Led 5 day air traffic control tower recap. Completed 1 day early, saved \$10K in hardware costs.

Radio Maintenance Technician, July 1994 to July 1996
United States Air Force, Offutt AFB, NE

- ✦ Maintained global, High Frequency radio networks supporting Air Force One and deployed combatant commanders
